## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-32 recite an integrated circuit device and a method of operating the same. The device and method comprises a memory cell array that is configured to output a plurality of data bits in parallel at a first data rate; and an output circuit that is configured to serially output the plurality of data bits to an external terminal at the first data rate in a normal mode of operation, and to serially output the plurality of data bits to the external terminal at a second data rate that is lower than the first data rate, in a test mode of operation.

The prior art does not teach or suggest the above elements and steps as recited in independent claims 1, 10, 12 and 25. Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
